Professional Summary

Application Security and DevSecOps professional with **9+ years** of experience across Application Security, Product Security, Penetration Testing, DevSecOps, Security Architecture, Threat Modeling, and Vulnerability Management. Currently working as an Assistant Manager at BNP Paribas, leading security initiatives across 25+ product teams and driving the adoption of secure software development practices across the SDLC.

Strong expertise in SAST, DAST, SCA, CI/CD security integration, secure coding, threat modeling, architecture security reviews, vulnerability assessment, and remediation. Hands-on experience conducting security assessments and penetration testing across web, mobile, API, thick-client, network, and Active Directory environments, including assumed-breach and black box assessments.

Experienced in partnering with Architect, engineering and development teams to identify security risks, assess exploitability, prioritize vulnerabilities, and implement practical remediation strategies.

Experience

BNP Paribas - Assistant Manager (AppSec & SecOps)
July 2023 - Present

- Lead security champion responsible for guiding development teams in secure coding, threat modeling, and vulnerability remediation.
- Drive adoption of secure development practices across 25+ product teams by implementing DevSecOps practices by integrating SCA, SAST, and DAST into existing CI/CD pipelines.
- Conduct architecture reviews to identify design-level weaknesses

Sirius Computer Solutions (acquired by CDW) – Security Consultant (AppSec)
Jan 2022 - July 2023

- Performed penetration testing and security assessments across web, mobile, thick clients, and APIs for enterprise customers.
- Executed network and Active Directory assumed-breach assessments to uncover misconfigurations and privilege escalation paths.

Infosys - Senior Associate Consultant (AppSec)
Feb 2020 - Jan 2022

- Conducted comprehensive application security assessments across healthcare, finance, and retail sectors.
- Collaborated closely with development teams to explain exploitability, risk, and remediation strategies.
- Facilitated security reviews and automated repetitive assessment tasks using Python and Bash.

Wipro Technologies - Software Engineer (AppSec)
Oct 2017 - Feb 2020

- Performed static and dynamic security testing on enterprise applications.
- Supported vulnerability management by tracking, triaging, and ensuring timely closure.

Key Strengths

1. **Web Application Penetration Testing:** Highly skilled in identifying, demonstrating, and mitigating security vulnerabilities in web applications.
2. **Vulnerability Identification and Management:** Strong experience in vulnerability analysis, prioritization, and remediation management.
3. **DevSecOps:** Expertise in integrating SCA, SAST, and DAST tools into CI/CD pipelines (Jenkins, and GitLab).

Projects and Achievement

Security Architecture review

- Led security architecture reviews and provided mitigation strategies for design-level risks.
- Conducted threat modeling using STRIDE and aligned mitigation with MITRE ATT&CK framework.

DevSecOps Integration

- Integrated security methodologies such as SCA, SAST and DAST into an existing CI/CD pipeline for a retail-based project
- Spearheaded the integration of security tools supporting SCA and SAST methodologies into Jenkins pipeline for a global bank entity, and streamlined the security testing processes.

Application Security

- Completed security assessments for **130+ applications** across finance, healthcare, retail, and commercial domains.
- Performed both Black Box and White Box testing for Web, Mobile (iOS/Android), Thick Client, and API platforms.
- Ensured compliance with OWASP, SANS, NIST, CIS security frameworks.

Network Security

- Conducted internal and external network penetration testing for **5+ enterprise** environments.
- Executed Active Directory assumed breach assessments and identified privilege escalation paths, misconfigurations, and lateral movement vectors.

Certifications

1. **CRTP** : Certified Red Team Professional (Pentester Academy) - ADLID4579
2. **CEH v11 :** Certified Ethical Hacker (EC-Council) - ECC3268107954
3. **CC** : Certified in Cybersecurity (ISC2) - 1526990
4. **AZ-900 :** Microsoft Azure Fundamentals (Microsoft) - H424 7660

Educational Qualification

Bachelor of Engineering (B.E.)
CGPA: 8.11

Higher Secondary (Class XII)
Percentage: 82

Declaration:

I hereby declare that all information provided is true to the best of my knowledge.
